

A running log so you can retire an old SDS while still meeting the 30-year identity-and-use requirement. Fill one row per chemical when it leaves service.

Company name

Facility

Person responsible for records

Product / chemical name	Manufacturer / supplier	Product identifier	Area(s) where used	Date first used	Date discontinued	SDS retained? (Y/N + where)	Identity/use record location	Retain until (disc. + 30 yrs)	Notes

This document reflects requirements current as of 2026-07-03. Regulations change — verify current requirements at official sources before relying on this for compliance. JMB Systems / TRS provides these materials as informational resources, not legal advice.

Keep this log, or the archived SDSs it points to, for at least 30 years. Based on 29 CFR 1910.1020. Not legal advice.
